title	User Settings - Email invalid
Report Day	25/11/2023
Operating system	Windows 11
Browser	Chrome
Priority	high
Assigned to:	

Description

A logged in user wants to change their account settings, and an invalid email can be entered and it is considered valid

Steps for playback

- While logged in and on Home
- Select the "Account" option
- With the drop-down menu, select "Settings"
- Enter an invalid email in "Email"
- Select the "Save" button

Expected result

You should send an error message indicating that the email entered is invalid or of invalid format

Current Result

The user information with the invalid email is updated

Screen/video printing and others

The screenshot shows a web application interface for user settings. At the top, a green notification box displays 'Settings saved!'. Below this, the 'User settings for user' form is visible. It contains three input fields: 'First Name' with the value 'Pepito', 'Last Name' with the value 'Trueno', and 'Email' with the value '33xxq@gml.com'. A red arrow points from the 'Email' field to the 'Settings saved!' message, indicating that the settings were saved despite the invalid email format. Another red arrow points to the 'Save' button at the bottom of the form.
